# LOCKY

ADGANGSKONTROLL - ET SYSTEM FOR ALLE

Locky gateway installation

Step 1.

Plug the gateway into a 5V power adapter (completely

normal USB plug connector). Then plug the device into a

wall contact.

Step 2.

Open your WIFI settings on your

smart phone and search for a network

called "Thundertech".

Step 3.

Scan the QR-code!

navigate to the following address:

http://192.168.4.1

and connect to your preferred network.

LOCKY

ADGANGSKONTROLL - ET SYSTEM FOR ALLE

Lights and reset

Lights

1. Red all the time, pairing mode, need to be connected to wifi.

.2. Red flashes at 30 intervals means it has not

3. Red flashes at 5 intervals: No communication with the server.

4. No light means everything is ok.

Reset

Press the"reset button" on top of

the gateway. Then hold it in until

it lights up red all the time.
